

CDI Government Services has over twenty years' experience in designing and producing high-quality, airborne and ground-based support equipment for prototype and production units. We provide complete project life-cycle support ranging from identifying operational needs and evaluating feasibility concepts through generating conceptual designs, designing and testing systems to supporting production, deployment and equipment operations. Our quality management system is registered under ISO 9001:2008 at our facilities in Portsmouth, Virginia; Norfolk, Virginia; Jacksonville, Florida; and Lakehurst, New Jersey.

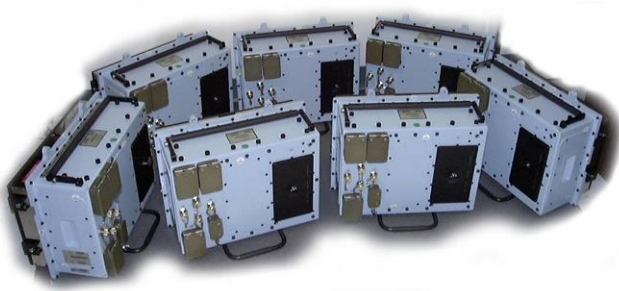

## Manufacturing at an Affordable Price

### Products

- ✓ Electronic testers
- ✓ Electronic interface devices
- ✓ Cable assemblies
- ✓ Wiring harnesses
- ✓ Equipment holding fixtures
- ✓ Equipment test stands
- ✓ Circuit card assemblies
- ✓ Aircraft modification kits
- ✓ Custom fixtures / tooling
- ✓ Avionics subassemblies

- ✓

# Experience

---

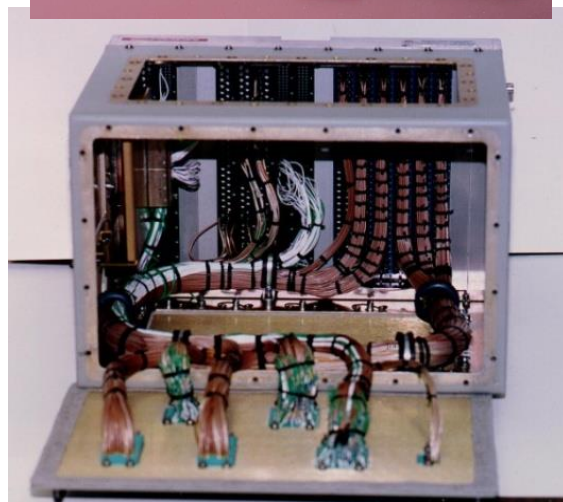

## Quality Management System

- ✓ ISO 9001:2008 certified
- ✓ MIL-I-45208 certified
- ✓ DCMA alternate release program
- ✓ IPC/EIA J-STD-001 certified IPC assemblers & trainers

## Core Capabilities

- ✓ Engineering design
- ✓ Prototyping
- ✓ Production manufacturing
- ✓ IPC / EIA J-STD-001 solder training certification
